VITACON.
the bladder scanner company

Introducing the easiest, quickest, and most reliable bladder scanners

Vitacon is the designer and developer of the Vitascan, the first fully automatic USB Ultrasound Bladder Scanner ■ Designed to calculate bladder volume using real-time ultrasound imaging ■ No need for sonographer training ■ Designed to be the most portable bladder volume scanner ■ Perfect for long-term care, nursing homes, skilled nursing, acute care, emergency departments, surgery centers, and urology clinics.

5 YEAR WARRANTY WITH UNLIMITED ONE-ON-ONE TRAINING

Our bladder scanners are the low-cost, high-quality imaging alternative to old-style "blind" scanners that merely point in the direction of the bladder.
